Overview

The National Trust Glamis Bat Box has been designed with an easy entry point and a grooved ladder entrance to make this an attractive roosting site for bats. By hanging this bat box in your outdoor space, you are providing a house for local bats to roost and raise their young.

Whether you have a small or large outdoor space, any area outside the house is suitable for this bat box.

Bats typically rely on existing nooks and crannies for shelter and a safe space to raise their young. A shortage of natural spaces can make it difficult for bats to find suitable sites though so why not lend a helping hand and add a specialist bat box to your garden.

With a black roof and bat logo it is a great addition to your garden, to give bats a safe environment to shelter.

The National Trust have partnered with CJ Wildlife to create a range of wildlife habitats and houses to help protect bats and other species that reside in our gardens.

Dimensions

31cm high

20 cm wide

6 cm deep
