

PROPOSED EXTENSION AND CONVERSION OF EXISTING GARAGE TO PROVIDE A FAMILY ANNEXE AT 53 CLAYTON ROAD SELSEY

DEVELOPOMENT PROPOSALS

The development proposal is to extend and convert the existing detached garage to provide independent annexe accommodation for the owner's elderly mother within their extensive frontage area. The existing shed will be repositioned to accommodate the extension but will not detract from car parking and manoeuvring as shown on the accompanying plans.

The Extension and alterations will be carried out sympathetically in matching materials and Architecture so will have minimal impact on bulk or street scene.
