

To whom it may concern,

Firstly I would like to say thank you for taking the time to look over this application. The reason I am looking at putting a static home within the rear of 22 Dinas Road is because as I am getting older I feel I am going to need additional support as I suffer with diabetes and COPD which will deteriorate my health over time. I have also had a few falls and have required a lot of support from my daughter and her partner. My husband also suffers with a bad back and has knee problems of which he can not have anymore operations under the NHS until he is 70 and will need both knees replaced which again we will need additional support from my daughter and her partner.

Kind regards and I look forward to hearing from you.

Karen Miles
