Details of the pre-application advice received

Asked advice on what best to do re: hedge as following pruning hedge is deadened and unsightly. Requested what the options were with regards replacement. I.e should we replace like for like (more conifers), grow climbers over unsightly areas, retrain branches over dead areas or remove and replace. Discussed appropriate species for replacement and hornbeam/beechn chosen as replacements due to their being native, attractive, providing all year cover and greater biodiversity.
