Hi Anne Marie & Neil

Just wanted to write to you both to confirm that we have no concerns to raise with regards to the hair salon operating from your home.

I'm aware the salon moved intermittently during Covid in 2020, and I know you moved there full time in August 2022, following the lengthy council works and long term closure of the only car park near the salon in Ormskirk.

Living next door, we have not experienced any issues with noise (even in summer and sitting out in our garden), or traffic (generally there may be two cars parked down the road and on occasion three, but we also have walkers parked here on a regular basis too). They all park to the side so there are no issues driving past parked vehicles, they are quiet and respectful and drive with care past our houses, they are also all gone by 1pm on the days the salon is open.

Also, from a purely personal perspective, living somewhere so rural and having an increase in people around during the working day/week when we are often away and travelling gives us a sense of added security of our home when we are not around.

Kind regards

Vicky
