

Biodiversity Statement

Prior to completion of the development a bird box will be installed on a north or east facing elevation or boundary and retained indefinitely as a biodiversity net gain measure. The bird box will be an RSPB Apex classic nest box or similar approved for a wide range of garden birds fixed accordance with manufactures recommendations.

Please see the link below for further details.

<https://shopping.rspb.org.uk/garden-bird-nest-boxes/apex-classic-nestbox.html>

The installation of a bird box is considered to be an appropriate biodiversity net gain measure for this low impact site.
