To whom it may concern

We are in desperate need for a new skate park in the Bassett close Park

The one that we currently have is over 20 years old, considering it being made out of concrete, it started to deteriorate quite badly. The mini ramp is starting to sink on both sides causing a danger to anyone using it. It's time to do a new park and give somewhere for the youth of our town somewhere safe to skate.

When I was younger I was an avid skater and used this park a lot this town needs something to replace the old one.

It's time to council stepped in approve this park.

I know that previously planning approval was denied. Now I don't understand how planning permission could be denied for skate park when we already have a skate park in that area Skate park. I Believe there is a large number of people that want this part than opposing the idea of building a new park. The site where the new park would be built is further away from residential housing So I feel it's a better location for escape park than the current one
