Dear Sir/Madam,

I am writing to show my support for current plans for Wellingborough Skatepark planning number NW/24/00176/FUL.

I have been following along with this development for a few years now as this has been a project over a decade in the making.

Skateboarding has no restrictions in terms of age or gender. It is a universal sport. It can bring friends and families together, unite generations and provide a proactive hobby that involves getting people out of the house and out into the world and their surrounding communities. This means unlimited mental and physical health support to through peer engagement.

Skateboarding is also an Olympic discipline and one we should be celebrating within our community for future generations to learn, develop and grow within our already active skateboarding community.

I understand that with change comes negativity. I can't see how a change that adds space for all to join in, in their local community and enjoy all that Wellingborough could offer is one that should be delayed and hindered any further.

I am happy to discuss any of this further and I look forward to your response.

Kind regards,
