I'd like to show support for the new proposed plans of a skatepark in Wellingborough. I believe this is long overdue as it seems this has become a very long ordeal since my initial investment in this project many number of years ago. Wellingborough is far behind in terms of development for amenities, falling short even to our neighbouring villages and smaller towns. The idea that this plan could be going ahead is very exciting and I know will be warmly welcomed by the locals of this town. We have been crying out for a place for our younger generation to explore and learn Olympic level sports as well as a hub for new economic growth. I am under the impression that the council have failed to realise the potential for economic growth with this given plan, I myself (as well as countless other members of the community) frequently travel to other towns and even villages for their accommodation of our relative sports, meaning we regularly spend outside of the town to the point that local businesses have seen the opportunity to earn and have therefore located their shops close to these newly refurbished skateparks. This is economic growth and residential care missed by our own council that I hope to see rectified in the coming months. I'd like to thank you for taking the time to read this email and I wish you all the best of luck.
