Supporting information requirements

a) Protected and priority species

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

YesNo

Please add all the exemptions or transitional arrangements that apply and provide a reason why

Exemption:

Development subject to the de minimis exemption (development below the threshold)

Reason for selecting exemption:

The planning application that is being submitted for The Hayloft equestrian application is exempt from the biodiversity net gain. The reason it does not apply, due to the one of the primary exemptions; • small sites (until April 2024); • For residential developments, small sites are those with less than 9 dwellings or less than 0.5 hectares. • For commercial developments, small sites are those with less than 1000 square metres of floor space created or a total site area of less than 1 hectare. • Development that is not for the winning and working of minerals or waste development. The total area of the site is less than required size (totalling 113.76 meters squared) and does not include a dwelling.

Note: Please read the help text for further information on the exemptions available and when they apply
