It has been established in this response that a change of use would be required from B2 General Industrial use as a vehicle repair garage to Sui Generis, as the proposal would have MOT servicing as its primary function with repairs as a secondary function. However, the applicant is advised that any forthcoming proposal would be unlikely to be supported due to concerns that the proposed use would generate a higher level of traffic where there is considered to be a low availability of parking available. The proposed use and intensification of activity would likely result in a negative cumulative impact to parking and in turn be a risk to highway safety as there would likely be parking in unacceptable locations. As such, any forthcoming application would likely be refused planning permission. No officer from Sheffield Planning as visited the interior of this site and as such they do not have any idea of the layout and space available. The comment about increased Traffic congestion does not stand up as vehicle repairs will be ceased so there will be no need for long term vehicles waiting for long term repairs, furthermore, mot tests will be on an appointment basis only and will when they arrive, be parked in the 3 existing spaces which is their current entitlement. Only one mot can be carried out at once, therefore the vehicles can be swapped around once completed. A further space can be used inside the garage itself as a parking space if urgently needed. **Authority Employee/Member** With respect to the Authority, is the applicant and/or agent one of the following: (a) a member of staff (b) an elected member (c) related to a member of staff (d) related to an elected member It is an important principle of decision-making that the process is open and transparent. For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
