18th April 2024

Dear Owner/Occupier,

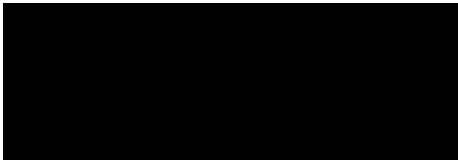

I have been advised by Sheffield City Council that due to the shared access of the businesses within this complex, I must inform you of my intentions to apply for planning permission to establish an MOT Bay within my unit.

The purpose of this MOT Bay will be to conduct MOT testing on class 4 vehicles, namely small cars and vans. This service will be exclusively confined to my unit, encompassing both the testing process and any minor repairs necessary to rectify issues discovered during the inspection. Additionally, all preparatory work required before testing will also be undertaken. It is important to note that all vehicle work will be conducted strictly by appointment.

Parking spaces 7 and 8 located at the rear of the complex will be designated for vehicles arriving for appointments and those undergoing testing, regardless of the outcome of their examination.

I have already submitted all requisite documentation to the Sheffield Council for their review and approval. Should you have any questions or concerns regarding this matter, I would greatly appreciate the opportunity to address them.

Yours Sincerely,

Rehmana Khan
