

## Climate Emergency Compliance Form for householder applications

Householder applications are required to complete the relevant sections of this form. Any form with blank entries will not be accepted and the planning application will not be able to be validated until the form is complete.

It may be that not all of the requirements apply to your householder proposal, please look at each of the requirements and consider what can be achieved within your proposal. Please refer to the [Climate Emergency Planning Toolkit](#) if you need further information.

In the event that any of the requirements are not met in full, please explain why this is the case and identify any proposals to mitigate the impact of non-compliance. This may be because your proposal is too small, or of a particular type, and that the requirement isn't applicable – this needs to be briefly explained in the appropriate column.

Completion of this form is a validation requirement and the local validations lists have been updated to include this.

<b>Climate Emergency Compliance Form</b>			
<b>Requirement</b>	<b>Is the requirement being met onsite?</b>	<b>If 'in full or in part', which document/plan is the evidence included in;</b>	<b>If 'not' or 'in part', please explain reason for non-compliance and identify any measures you are proposing to mitigate for the non-compliance</b>
	<b>In full (F)</b>  <b>In part (P)</b>  <b>Not at all (N)</b>		
<b>Mitigation</b>			
MI – Min 1kw of onsite renewable energy generation	P	The property currently has an old inefficient boiler. This will be replaced by a new Air Source Heat Pump. (ASHP on plans).  The applicant has considered placing solar panels on the roof in future years, to provide renewable energy to the property. This won't be immediately but possibly a few years after the build.	

OFFICIAL

M4 – Resilient and low carbon building materials	P	The build will look to use sustainable; UK sourced materials and the applicant will be using a local builder for the project.	
M6 – Electric vehicle charging points	Y	The applicants do have an electric car and therefor will be installing an external EV point which is proposed to be in the newly created parking bay (exact location TBH).	
<b>Adaptation</b>			
A1 – <del>Passive solar design</del> (All apps)	N/A	Additional documentation not required whilst this measure is under review.	Additional documentation not required whilst this measure is under review.
A2 – Protecting our soil resource (All apps)	N/A	<i>(Supporting statement if applicable)</i>	
A3 – Protecting and enhancing tree cover (All apps)	N/A	<i>(Supporting statement if applicable)</i>	
A4 – Protecting and enhancing gardens, green spaces and greenfield sites (All apps)	N/A	<i>(Supporting statement if applicable)</i>	
A5 – Delivering sustainable drainage, surface water management and restricting urban creep (All apps)	N		No additional roof space is to be proposed, so the existing surface water drainage will be retained.
<b>If an offsetting contribution is being proposed to mitigate the impacts of non-compliance, please</b>
