

# Slatted Cladding

Composite Wall Cladding 3.6m & 2.5m

Available in a range of six colours, Slatted Woodgrain Effect Composite Wall Cladding is the perfect way to make a statement and is a colour-stable alternative to traditional timber exterior cladding. Created with a combination of recycled wood and plastic, Wall Cladding is a low-maintenance product and will give many years' worth of reliability in all types of weather conditions.

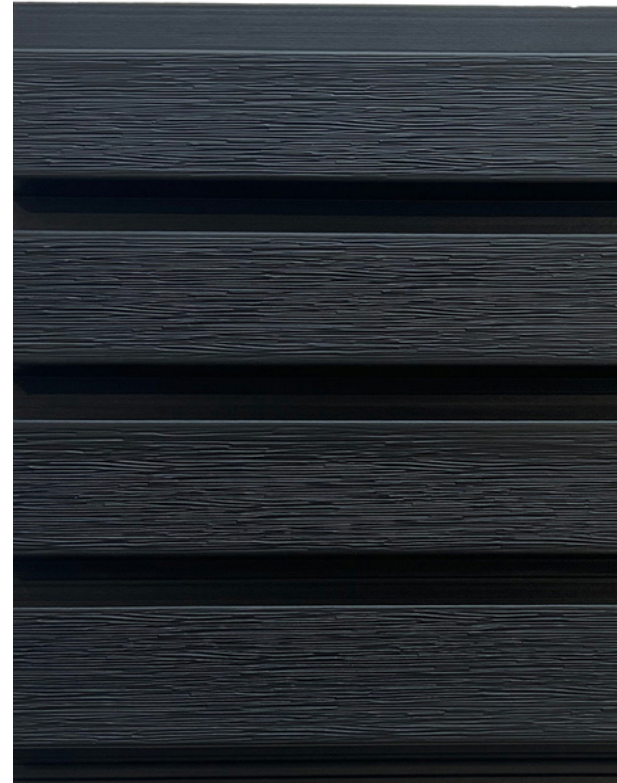

Composite Wall Cladding Boards give 200mm coverage once you have installed it to your exterior wall. It is recommended that every 500mm is supported by Battens and to use Composite Battens as per the installation guide.

Our Slatted Wall Cladding is meticulously crafted to make a bold statement. With its sleek lines, contemporary allure, and exquisite slatted pattern, it adds a touch of architectural elegance that will leave a lasting impression. Transform your space into a modern masterpiece that exudes sophistication and charm.

## Why Choose our Slatted Cladding ?

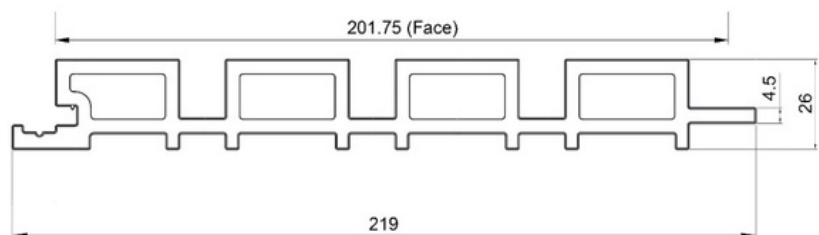

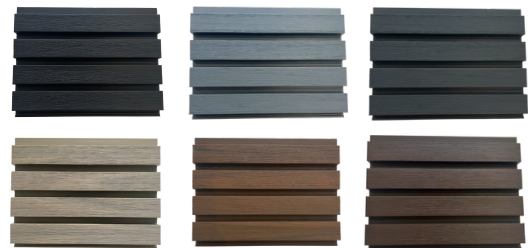

Slatted Wall Cladding is an easy way to get that real wood effect without the effort, thanks to its attractive woodgrain pattern it gives the appearance of natural wood. Slatted Wall Cladding is low-maintenance and doesn't need to be painted, stained, treated or sealed.

Whether you're looking to revamp your residential space or elevate a commercial project, our Slatted Wall Cladding is the perfect choice. Its versatility knows no bounds, seamlessly integrating with various architectural styles and settings. From chic urban residences to cutting-edge office complexes, our cladding elevates the ambiance and creates a truly captivating atmosphere.
