4 (a). Using the information obtained through research and on-site analysis provide a summary of the history of the site/building.

Please add a summary history of the site/building including specifically the parts that will be impacted by the proposals – e.g. how the site/building was originally laid out, how it has evolved, phases of construction and/or change. Please also provide information on past impacts – e.g. modern extension, drainage, former footings, recent landscaping, gardening. **Please include / attach any research material as an addendum to this Statement after Appendix 1.**

5 St Johns Mews is one of nine small 'cobble-fronted' houses in the mews. The Mews was originally built in the ~1830s but the current Mews is based on a planning application approved in 1994. These are as follows –
 93/0318/SP – partial demolition and conversion of remaining buildings to form 7 x 2-bedroom houses. Construction of 2 x 2-bedroom storey houses fronting Bristol Road. Provision of 9 car parking spaces.
 93/0319/CA – demolition of existing hall fronting Bristol Road and partial demolition of rear buildings.

There are no photos/pictures of the original Mews but evidence of the brickwork and the rear wall indicate that houses, 4 and 5 at St Johns Mews were built in 1994 and designed to blend with the remaining houses in the Mews.

The Mews received Grade II listing in August 1999 after the recent conversion had occurred.

It is thought that there are no retaining historic interior features at 5 St Johns Mews as the house was constructed in 1993/4.

4 (b) What research have you undertaken to understand the significance of the heritage asset(s) affected?

Please tick the relevant boxes

HER	<input checked="" type="checkbox"/>
The Keep (East Sussex Record Office)	<input checked="" type="checkbox"/>
Map regression (historic maps)	<input type="checkbox"/>
Local Planning Authority sources	<input checked="" type="checkbox"/>
Historic England sources	<input type="checkbox"/>
Museum or Library (please provide details)	<input type="checkbox"/>
Other (please state) James Gray Collection & The Argus Archives	<input checked="" type="checkbox"/>

(Please include / attach any research material as an addendum to this Statement after Appendix 1.)

5. What is important about the affected heritage asset(s) ('the significance')? (See guidance section: <https://www.brighton-hove.gov.uk/content/planning/heritage/heritage-statements-what-important-about-affected-heritage-assets>)

Use this space to describe the significance of the heritage asset(s) including their setting (and any below ground archaeology) identified in Section 3. Please see the guidance notes on page 9 on what a heritage asset is and how to define significance.

(Please continue on a separate sheet of paper if further space is required and attach / include as an addendum to this Statement after Appendix 1.)

St Johns Mews is considered important as 'it is a rare surviving example of early c19 livery stables building where the particular value is in its group value'.

Taken from the officer's report, reference BH2019/01747, 4 St Johns Mews. The interior of the building has no discernible historic character.

6. How will the proposals impact on the significance of the heritage asset(s) including their setting? (See guidance section: <https://www.brighton-hove.gov.uk/content/planning/heritage/heritage-statements-how-will-proposals-impact-significance-heritage-assets>)

Please discuss what impact the proposals have on the heritage asset(s) i.e. loss or disturbance of historic building fabric, below or above ground archaeological impacts, setting or change of relationship between buildings and altering scale. **(Please continue on a separate sheet of paper if further space is required and attach / include as an addendum to this Statement after Appendix 1.)**

All the work is to the interior of the building and only reconverting the one bedroom to two bedrooms on the first floor.

7. How has the proposal been designed to conserve the significance of the heritage asset(s) including their setting? (See guidance section: <https://www.brighton-hove.gov.uk/content/planning/heritage/heritage-statements-how-has-proposal-been-designed-serve-significance>)

Describe how the proposal has been designed to conserve and enhance the significance of the heritage assets (including below ground archaeology). Also describe how any harmful impacts have been avoided or minimised. For example, use of raft foundations, movement of the proposed extension to a less sensitive location.

(Please continue on a separate sheet of paper if further space is required and attach / include as an addendum to this Statement after Appendix 1.)

To return 5 St Johns Mews to a 2 bedroom does not impact on heritage assets. The work is all interior and does not have any effect on the exterior of the Mews.

Guidance Notes

The **Heritage Statement** should identify all **heritage assets** potentially affected and their settings; describe their significance; and assess the potential impact of the proposal on that significance, including direct physical change and change to their setting.

Heritage assets include designated and non-designated assets, as well as both buildings and below ground archaeology.

The **National Planning Policy Framework (NPPF)** (Department for Communities and Local Government, July 2018) sets out the government's planning policies for England and how these are expected to be applied. The relevant section which relates to heritage is: **Section 189** which states that:

In determining applications, local planning authorities should require an applicant to describe the significance of any heritage assets affected, including any contribution made by their setting. The level of detail should be proportionate to the assets' importance and no more than is sufficient to understand the potential impact of the proposal on their significance. As a minimum the relevant historic environment record should have been consulted and the heritage assets assessed using appropriate expertise where necessary. Where a site on which development is proposed includes or has the potential to include heritage assets with archaeological interest, local planning authorities should require developers to submit an appropriate desk-based assessment and, where necessary, a field evaluation.

National Planning Policy Framework:

<https://www.gov.uk/government/publications/national-planning-policy-framework--2>

For **further information** on assessment of significance and assessing the potential impact of a proposal on that significance, including setting, can be found in (or their future updates):

- CLG (2012) **National Planning Policy Framework (NPPF)** (especially paragraph 17, Section 12 and Annex 2 Glossary)
- CLG (2014) **Planning Policy Guidance (PPG)** (especially 18a, paragraph 001-063)
- Historic England (2015) **Good Practice Advice (GPA) note 2 Managing Significance in Decision Taking in the Historic Environment**
- Historic England (2015) **Good Practice Advice (GPA) note 3 The Setting of Heritage Assets**

The NPPF and PPG also include a Glossary and explanation of terms, such as 'heritage asset', 'setting' and 'significance':

Heritage asset: A building, monument, site, place, area or landscape identified as having a degree of significance meriting consideration in planning decisions, because of its heritage interest. Heritage asset includes designated heritage assets and assets identified by the local planning authority (including local listing).

Setting of a heritage asset: The surroundings in which a heritage asset is experienced. Its extent is not fixed and may change as the asset and its surroundings evolve. Elements of a setting may make a positive or negative contribution to the significance of an asset, may affect the ability to appreciate that significance or may be neutral.

Significance (for heritage policy): The value of a heritage asset to this and future generations because of its heritage interest. That interest may be archaeological, architectural, artistic or historic. Significance derives not only from a heritage asset's physical presence, but also from its setting. (NPPF Annex 2: Glossary)
