Subject: Scottish Water – Application Response - 24/00190/FULL- 14 Whinfield Road Montrose DD10 8SA

24/00190/FULL Renovation of existing attic, installation of rooflight and replacement dormer
14 Whinfield Road Montrose DD10 8SA

[Audit of Proposal](#)

Scottish Water has no objection to this planning application; however, the applicant should be aware that this does not confirm that the proposed development can currently be serviced and would advise the following:

For all extensions / Internal renovations that increase the hard-standing area within the property boundary, you must look to limit an increase to your existing discharge rate and volume. Where possible we recommend that you consider alternative rainwater options. All reasonable attempts should be made to limit the flow.

No new connections will be permitted to the public infrastructure. The additional surface water will discharge to the existing private pipework within the site boundary.

I trust the above is acceptable however if you require any further information regarding this matter please contact me on **0800 389 0379** or via the e-mail address below or at planningconsultations@scottishwater.co.uk.

Kind regards
