To Christina Maxwell

Good evening, Christina.

Thank you for giving us the opportunity to have a look at your garage with a view to quoting for renovation works.

Unfortunately, we feel the property is in far too much decline to repair it to a suitable standard.

It has a collapsed roof. The exterior walls are crumbling and buckled. There is no DCP in the property.

It is our opinion it would be unsafe to work on and financially it would be far more cost-effective to demolish the property and start again. This is my opinion after 30 years' experience.

Sorry to be the bearer of bad news but the property is in terrible condition.

Please don't hesitate to contact us if you want to have a chat moving forward.

Kind regards

Bob
