Product description

Our new Lodge nest boxes are suitable for a variety of garden birds. Beautifully-made in the UK from FSC® certified timber in two styles. This open-front design is ideal for robins, wrens or pied wagtails.

- Ideal for robins, wrens or pied wagtails
- Removable base for easy cleaning
- Refined design including drainage holes
- Measures 25.5 x 29 x 16.5cm.

Also available is the Classic apex which features a 32mm entry hole and is perfect for blue tits, great tits and house sparrows in particular. Both boxes have drainage holes and the base can be removed for easy end-of-season cleaning.

With a wide range of expertly-designed bird houses to choose from, you can easily provide a safe, welcoming home in your garden for different wild birds. RSPB Shop also provides advice on where to locate your bird house. Help us give nature a home!

FREE UK delivery with orders over £50

Product description

These protected mammals have lost many roosts in recent years. Provide bats with a place to roost in your garden with this quality bat nesting box.

It is made from solid, durable FSC® certified timber which provides great insulation. It features two different-sized chambers, making it suitable for pipstrelles in the smaller chamber and brown long eared bats and noctules in the larger chamber. Only one species per box at any time will roost.

Save £1 when you buy this bat box and a bat guide and seeds attractor pack together. See item R405160 for details.

Please note that bats are a protected species and it is an offence to knowingly disturb an active roost without a license.

- Measures: 44 x 21 x 15cm.
