Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why they are exempt from doing so.

[Find out more about biodiversity net gain, and access digital tools from our partners that can help determine if you are exempt, or produce the biodiversity metric information required.](#)

Exemption:

Note: Please read the help text for further information on the exemptions available and when they apply

Are you proposing to connect to the existing drainage system?

- Yes
- No
- Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

A 150mm diameter public foul sewer (clay pipe) runs just north of the site at approximately 111.00 level. Initial discussions with Southern Water suggest a local connection can be made via a manhole under a section 106 agreement. The drainage may need to be pumped, but this will depend upon the precise depth of the sewer at the point of connection.

The proposed dwelling is more than 3m from the sewer and initial advice suggests that a build over agreement will not be required for the construction of the new building or access road. This will be confirmed at the next stage of design development.

Do the plans incorporate areas to store and aid the collection of waste?

- Yes
- No

If Yes, please provide details:

REFER TO 1290-HULLE-00-01-DR-A-0140_SITE PLAN

The new house will be provided with standard waste wheelie bins for general waste and recycling with collection adjacent to the site entrance off New Road.

Have arrangements been made for the separate storage and collection of recyclable waste?
