

The diseased tree I would like to apply to be removed which could be dangerous in terms of severe damage to my home roof/bedroom. The tree has been described as a very high risk of falling in in the next high winds/storm by a professional tree surgeon.

My Home as viewed from Holly Lodge's garden

There are two large trees in Holly Lodge's Garden. The one closest to my property is the one I would like to have removed. I have highlighted this with the red ring.
