

## **Sustainability Statement - minor applications**

Sustainability standards	Yes	No
A Net zero carbon		
I. Has the building fabric been designed to standards of ultra-low energy demand?		
2. Has thermal comfort and the risk of overheating been assessed and passive design measures been prioritised?		
	<del></del>	,
3. Is the development fossil fuel free?		
4. Will a net zero operational carbon balance be achieved and 100% of energy consumption delivered using renewables?		
5. Will embodied carbon emissions be minimised?		
B Travel		
Is home working supported?		
2. Has active travel been prioritised?		
3. Is shared mobility facilitated?		
4. Will electric vehicle charging infrastructure be provided?		
C Water		

I.	Will water consumption be minimised?	
2.	Will water be conserved through rainwater harvesting or grey water recycling?	
3.	Has the flood risk assessment accounted for climate change and is sustainable drainage proposed?	
D	Waste	
I.	Will the construction company be registered with the Considerate Construction Scheme?	
2.	Will a Site Waste Management Plan be followed and targets set for construction waste recycling and disposal?	
3.	Will there be safe and convenient access to waste recycling?	
Ε'	Voluntary sustainability standards	
	Voluntary sustainability standards  Will non-domestic development be BREEAM certified?	
1.		
1.	Will non-domestic development be BREEAM certified?  Will the development receive a sustainability accreditation and/or follow	
2.	Will non-domestic development be BREEAM certified?  Will the development receive a sustainability accreditation and/or follow	
1. 2.	Will non-domestic development be BREEAM certified?  Will the development receive a sustainability accreditation and/or follow recognised sustainability principles?	
1. 2.	Will non-domestic development be BREEAM certified?  Will the development receive a sustainability accreditation and/or follow recognised sustainability principles?
