AspectName:Historic Landscape

SurveyDate:23/10/2003

UID:CYNONHL701

AreaName:Rhymney Valley

Region:Bridgend/Caerphilly/Rhondda

CLS_1:Built environment

CLS_2:Settlement

CLS_3:Other Settlement

CLS_4:

HL_1:2017-03-15

HL_1a:Historic Landscape change detection work completed by the relevant Welsh Archaeological Trust for this area, the planning authority have been included. Quality Assurance of change detection work was completed by Trysor.

HL_1b:This record remains unchanged following monitoring work

HL_1c:

HL_1d:

HL_1e:Yes

HL_2:No

HL_3:

.HL_4:The longest transport and communication corridor within the region. The aspect area is characterised by heavy industrial activity and urban growth along the length of the valley, from Rhymney in the extreme north to Machen on the Gwent border to the south. The Rhymney Valley exhibits occupation evidence from the Neolithic through into the present and represents an important and historically significant aspect area. The prehistoric period is well represented; a neolithic polished flint axehead

HL_5: Woodland. Water & Wetland. Extractive. Processing/Manufacturing. Communications. Recreational

HL_6:

HL_7:
