

**TREES TO BE REMOVED**

x1 Tree as marked to be removed as part of these works

Tree removed as condition is either in very poor state/dead.

Trees retained to be protected to BS 5837: 2012 standard.

Any excavation within these areas must be carefully planned, phased and controlled to ensure no damage is done to the retained trees.

Access to these areas must also be carefully managed to avoid damage and compaction to the root zones and be in accordance with BS 5837: 2012.

Felling works to take place outside nesting bird season, or under supervision of qualified ecologist. Any clearance works are to be assessed against recommendations as set out in Preliminary Ecological Appraisal

- 1. Existing tree retained
- 2. Existing tree removed
