Matthew and I discussed the current windows and he noted that they are not the originals and are later replacements, late 20th century. We discussed the need to go with timber traditional flush casement windows with heritage double glazing (less than 14mm) with integral glazing bars and putty finish and heritage glazing to protect the overall character of the building.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
