**Comments on planning applications should relate only to matters within the scope of planning control. This can include whether:**

- the proposal conflicts with any of our planning policies
- the appearance and size of a new building is generally in keeping with its neighbours and the surrounding area
- adjoining residents will suffer any unreasonable overshadowing, overlooking or loss of privacy
- a proposed use is a suitable one for the area
- there will be any unreasonable increase in general disturbance, for example from the comings and goings of extra traffic
- new roadways, accesses and adequate parking will be safe for road users and pedestrians
- new public buildings have satisfactory access for the disabled
- , in the case of an application for an advertisement, the proposed sign is too large or unsightly
- a public footpath is affected
- there is any visual effect upon the landscape, e.g. loss of trees
- there is an impact on the character and appearance of a Listed Building/Conservation Area in the case of applications for Listed Building Consent or Conservation Area Consent

**However, the following cannot be taken into account:**

- Boundary and other disputes between neighbours, e.g. private rights of way, drainage issues or covenants
- Loss of view, unless, in limited circumstances, that view should be protected in the public interest
- Loss of trade through increased competition
- Loss of property value.
