Proposal

There is a very large common conifer tree in the middle of the plot that is blocking light and killing ground it stands on. It is also very close to the garage which is causing damage to the structure. The tree has been left to grow without any maintenance to it by the previous owners. I'm guessing it's height is around 16 meters.

1. if possible I would like to take the tree down. I am happy to plant additional trees on the plot near to the boundaries. I am happy to take guidance on what to plant. There are several very large conifers in the Lion Hotel which have grown to enormous sizes due to no tree care being undertaken by the pub.
